100,000 YANKEES IN GREAT BATTLE

Part of Army in Reserve to Be Thrown at German Invaders

THIS FORCE IS 800,000 STRONG

And In Addition, the British Have a Reserve of 400,000

Washington, March 29.—Advices received by the war department yesterday would indicate that the allies are in a better position to wage a counter-attack than the Germans are to oppose one. The allies have 800,000 men in reserve, including 100,000 Americans, in addition to a British reserve of upwards of 400,000 men.

The Germans, it is declared at the department, have not more than 300,000 reserve men with which to meet the counter-attack. This reserve total does not include the divisions which have been used in any way in the drive against the British in the last week, but it is anticipated that the British soldiers who have been fighting during the week will be able to handle the Germans who have been fighting during the same period.

Experts in the department were confident after reading cables yesterday that the allies will handle themselves well in the counter-offensive. The experts predicted that when the counter drive comes, the 100,000 Americans will participate. They could not say whether the New England division, the 26th, would participate, but believed it probable.

The counter-offensive is expected momentarily. A hard blow is looked for, and the allies will make a desperate effort to pierce the German line at a certain point which has been selected.

LENROOT PICKED TO WIN IN WISCONSIN

Chairman Hays Says His Majority for the Senate Will Be 25,000.

Washington, March 29.—Congressman Irvine L. Lenroot, Republican, candidate for senator from Wisconsin, will win by 25,000 votes, according to a statement made over the long distance telephone yesterday afternoon by Will H. Hays, chairman of the Republican national committee. Mr. Hays said it was possible that Victor E. Borah would come in second or at any rate would run a close race with Joseph E. Davies, the Democratic nominee.

MOTHERS TO BE

Should Read Mrs. Monahan's Letter Published by Her Permission.

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, sometimes I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia, I had gained in strength and was able to go around and do all my housework. My baby when seven months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. PEARL MONAHAN, Mitchell, Ind.

Good health during maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

AIRPLANE CHIEFS CALLED TO GIVE INFORMATION

Senate Military Committee Summons General Squier, Colonel Deeds and Howard E. Coffin.

Washington, March 29.—To obtain additional information regarding the airplane situation, the Senate military committee yesterday called Major General Squier, head of the signal corps, Colonel Deeds of the signal corps, and Howard E. Coffin, chairman of the aircraft board, before it for this afternoon. Charges that the committee on public information in issuing photographs on airplane production supplied misleading information, tending to exaggerate the volume of production, were investigated yesterday before the committee.

George U. Beach, employed as assistant counsel for the war risk insurance bureau, told the committee that Secretary Daniels refused his offer to turn over free to the government all American rights to the Sunbeam motor, which he said had been used with considerable success in English battle planes. Mr. Beach said he acquired and offered the rights to the government for entirely patriotic reasons.

Morris Strunsky, who wrote the captions on four pictures shown out for use on March 20 and since withdrawn from publication, declared he based his information for part of the captions on statements by Secretary Baker, and said that perhaps he permitted enthusiasm to dominate the facts, denying any intention to mislead the public.

Charges that German spies were responsible for the country's failure to keep up its aeroplane program, were made in the Senate yesterday by Senator Overman, Democrat, of North Carolina. He also charged that there were spies in the Curtiss plant.

These spies had done much damage, he said, and he advocated taking over the Curtiss plant. He thought there were 400,000 spies in the country.

10,000 STUDENTS TO BE TRAINED AS OFFICERS

Will Receive Special Military Instruction in Camps to Be Established.

Washington, March 29.—More than ten thousand students who are members of units at educational institutions will receive military instruction this summer under the direction of the war department. The plan has been published for the issuance of complete uniform equipment to each student who agrees to participate in the special instruction camps to be established by the department.

It is probable that the students will be attached to organizations of drafted men for this special camp in instruction and later will become eligible for the regular officers' training camps.
